

Sip all Day. Get Decay. Keep spreading the word.

Thanks to the Minnesota Dental Association's award-winning education materials, kids, teens, parents and school administrators are getting the message about the health consequences of sipping pop all day. Once a silent epidemic, pop drinking is now headline news. Our goal is to keep it there.

To help, we have a new PowerPoint presentation, "Kids, Teens and Soft Drinks. Get Ready to Gulp."

It's aimed at educating adults on pop consumption and tooth decay, childhood obesity, calcium deprivation, and sugar and caffeine addiction. It's also a motivational tool to help parents put pressure on their schools to offer healthy choices in school vending machines.

Available on CD, this new instructional aid is packed with eye-opening information.

We continue to offer brochures in Spanish, Hmong, Vietnamese, Somali and Russian. And our popular refrigerator magnets are also available as stickers.

With these powerful education materials, we've made remarkable headway in changing attitudes

about soft drink consumption. But we still have a long way to go. Keep spreading the word. Help keep

awareness high. Place your order today.

ORDER FORM
