

Resources for ongoing care

This is a list of dental clinics throughout Minnesota that provide dental services to patients who are on public care programs, or that offer services at a reduced cost. Find a clinic in your area, and then **call to make an appointment**. Please note that services, hours and costs at these clinics vary, so you may find it helpful to click on the clinic website for more information.

Please note that this is not a comprehensive list of all dental clinics that provide such services. In addition, many private practice dentists who are not listed here provide care to those who are enrolled in Minnesota Health Care Programs (Medical Assistance, Minnesota Care, and General Assistance Medical Care).

Be sure to also check the bottom of this list for special resources where limited amounts of free dental care are offered under certain circumstances.
