

The Minnesota Dental Foundation (MDF) offers financial support and in-kind services for outreach programs that meet the mission of the MDF by providing dental services to underserved populations, by promoting dental health initiatives, or by supporting dental profession career and volunteer opportunities. The focus is on providing resources that will make lasting improvements in the oral health of Minnesotans and enhance the dental profession in the state.

Each year the MDF Board of Directors reviews applications for grants that fit these criteria. Support for programs and oral health initiatives may change each year based upon issues facing the dental profession, but the core principle of benefiting the underserved remains constant. Since 2001, the Foundation has awarded \$1,978,909 in grants and/or in-kind services to fund 463 oral health initiatives.

2016 Recipients

In 2016, MDF gave \$364,620 in cash and/or in-kind services to 40 projects. Some of the recipients may have received assistance on more than one project. Of those dollars, funding was provided for six internal programs – the Minnesota Mission of Mercy, Donated Dental Services, Martha Mordini Rukavina Loan Forgiveness Program, Minnesota’s Heroes Orthodontic Program and the Retired Dentist Program, at a total cost of \$328,620. In addition, the Dedicated to Minnesota’s Dentists Loan Repayment for Service Program, which is a collaborative effort with Delta Dental of Minnesota Foundation, provided an additional \$400,000 to assist four dentists in starting to practices in rural HPSAs in Minnesota. All of the funded programs help increase access to care for underserved populations or help to build a sustainable oral health workforce in Minnesota.

Give Kids a Smile

The following community clinics received funding and/or in-kind support for the two-day charitable program in February that provides free preventive and restorative dental care to children from low-income families. Grant monies help defray the costs for dental supplies and oral health education materials for the children. In 2016, 3,230 children were seen in 164 community clinics and private dental offices. The value of the services provided was approximately \$1.725 million by 1,826 volunteers, which included 351 dentists. In addition, the Minnesota Dental Foundation contributed \$5,000 for media exposure to help inform potential patients.

Apple Tree Dental, Rochester
Central Lakes College, Brainerd
CHI St. Joseph’s Health Community Dental Clinic, Park Rapids
Children’s Dental Services , Minneapolis
Community Dental Care, Maplewood
Lake Superior College - Dental Hygiene, Duluth
MDDS/Sharing & Caring Hands/Apple Tree Dental, Minneapolis

Sharing and Caring Hands, Minneapolis
Southside Community Health Services, Inc., Minneapolis
Union Gospel Mission Twin Cities, St. Paul
West Central Initiative, Fergus Falls
WSCHS/East Side Dental/Medical-Dental Integration Project, St. Paul

Allied Dental Education Programs

The following organizations in Minnesota received grants to help with resources to assist with educating dental auxiliaries while providing care to the underserved.

There were no grants in this category in 2016.

Internal Programs

The following seven projects of the Minnesota Dental Foundation provided care to the underserved.

Donated Dental Services (DDS), a program of Dental Lifeline Network provided free dental care to disabled, elderly and medically fragile patients in private dental offices. In the fiscal year ended June 30, 2016, 209 patients received \$1,019,288 in comprehensive care by 429 dental volunteers at a cost of \$80,000. This was the first year since the program's inception in 2003 in Minnesota that donated services exceeded \$1,000,000.

The **Martha Mordini Rukavina Loan Forgiveness Program** is funded by the Iron Range Resources and Rehabilitation Board (IRRRB) to help dentists pay back educational loans if they are willing to practice in the Taconite Assistance Area of northeastern Minnesota for at least five years. Two recipients were selected for this program and each will receive \$30,000 for four years for a total of \$120,000 each as long as they comply with the program requirements. This program started in 2009 and became a program of the Minnesota Dental Foundation in 2011.

The **Minnesota Mission of Mercy (MnMOM)** project set up a temporary dental clinic at Concordia College in Moorhead in July. There were 841 caring volunteers who provided \$997,785 in free dental services in 1,391 patient encounters. The cost of the program was \$192,234. Since the inception of this program in Minnesota in 2012, \$5,105,100 in free dentistry has been provided in 8,035 patient encounters.

The **Retired Dentists Program** is a project for retired dentists who are no longer earning any income from dentistry to reimburse them for their license, professional liability insurance, CPR and CE in return for providing volunteer dentistry to the underserved. Retired dentists must provide at least 100 hours per year (about one day per month) and receive no compensation.

Reimbursement is a maximum of \$4,000 in every two-year cycle. Currently, there are six retired dentists in the program. Total expenditures for the program in 2016 were \$2,249.

The **Minnesota's Heroes Orthodontic Program** was initiated in 2015 to provide needed orthodontic care to children and spouses in Gold Star Families (families who have lost a family member to the wars in Iraq and Afghanistan since 9/11). This program is in collaboration with Smiles Change Lives and the Minnesota Association of Orthodontists. Two children currently are in orthodontic treatment. The orthodontists provide the treatment for free and there have been no direct costs for this program.

The **Dedicated to Minnesota Dentists Loan Repayment for Service Program** provides loan repayment up to \$200,000 per individual if they practice in a rural Health Professional Shortage Area (HPSA) for five years. This program is in collaboration with the Delta Dental of Minnesota Foundation and it provides the funding of the program. Two dentists were selected for 2016 in the cities of Deerwood and International Falls with total payments of \$400,000. A total of six dentists and \$1.2 million now has been utilized to provide dental services in rural HPSA areas of Minnesota.

The **Give Kids a Smile** program became a program of the Minnesota Dental Association in 2003 and was transferred to the Minnesota Dental Foundation in 2016. Grants and support from HealthPartners, 3M Oral Care, the Minnesota Dental Association and the Minnesota Dental Foundation contributed funds for the media exposure and program management. Since the program's inception in Minnesota in 2003, 71,733 children have received \$19.825 million worth of free dentistry.
