

COURTNEY BULL

Physician Assistant -certified

Practices at Park Nicollet in Eagan MN

Areas of practice Adolescent and women's health, preventative medicine, diabetes, high blood pressure, depression, asthma, and contraception

My passion is to take care of patients with a variety of medical concerns and issues. I enjoy seeing patients from adolescents through later life. My emphasis is to care of the “whole patient”, placing a focus on listening to their concerns, treating acute and chronic illness, along with preventive medicine.

Additionally, I have a strong interest in women’s health and treating diabetes. I practice in a certified Health Care Home, giving my patients the best access to appointments and resources. I enjoy spending time with my children and extended family. In my free time, I enjoy reading, traveling, yoga, running, and biking.
