

The Minneapolis District Dental Society invites you and your staff members to attend this educational event.

Thursday, February 18, 2016
Minneapolis Marriott Southwest Hotel

5:30 p.m. Social Reception

6:15 p.m. Dinner

7:15 p.m. Program

“Incorporating Current Technology into Clinical Endodontics: An Update for General Dentists and Specialists”

Dr. Doyle received his B.S. from the University of Wisconsin-Madison in 1995 and his D.D.S. from the University of Minnesota in 1999. He served in the United States Air Force for 7 years, including an Advanced Education in General Dentistry residency. Dr. Doyle obtained both his M.S. and Certificate in Endodontics from the University of Minnesota in 2004. He currently practices with Metropolitan Endodontics and serves as an Associate Clinical Professor for the Division of Endodontics at the University of Minnesota. Dr. Doyle is a Diplomate of the American Board of Endodontics. He is a Past President of the Minnesota Association of Endodontists, Chair of the AAE Continuing Education Committee, and serves as a reviewer for the Journal of Endodontics. Dr. Doyle has authored multiple articles in scientific journals, as well as a chapter on the “Endodontic Applications on CBCT” in an upcoming textbook.

Scott L. Doyle, D.D.S., M.S.

Program Learning Objectives

- Discuss how 3D imaging can serve as a valuable adjunct for diagnosis and treatment planning.
- Identify the applications of cone beam computed tomography (CBCT) in endodontic practice.
- Describe new instruments, materials and techniques used in nonsurgical and surgical endodontic therapy.
- Explain how procedural and technological advancements can result in more predictable treatment outcomes.
- Employ strategies to incorporate current technology into the clinician's practice.

Program Synopsis

The clinical practice of endodontics has evolved significantly over the past decade. Advancements in science and technology have resulted in more accurate diagnosis and improved treatment outcomes. This clinically oriented program will highlight some of the instruments, materials and techniques used in contemporary endodontic therapy. Whether you are a student in training or a seasoned specialist, attendees will benefit from learning about the latest developments in endodontics.

Registration Form

**“Incorporating Current Technology in Clinical Endodontics”
with Dr. Scott Doyle
Thursday, February 18, 2016
Minneapolis Marriott Southwest Hotel in Minnetonka**
