## **“TMD Risk Analysis—Part One”**

**Dr. Lee Ann Brady** is a privately practicing dentist and nationally recognized educator, lecturer and author. With an extensive history in leadership, she is currently Director of Education of the Pankey Institute. Dr. Brady has also developed a vast library of online instruction at [leeannbrady.com](http://leeannbrady.com) and [restorativenation.com](http://restorativenation.com).

She practices in Glendale Arizona, is a member of the editorial board for the Journal of Cosmetic Dentistry, Inside Dentistry and Dentaltown Magazine.

Lee Ann Brady, D.M.D.

### **Learning Objectives**

- JAMSS Protocol
- 5 Minute JAMSS Risk Assessment
- Joint, muscle and occlusal exam for risk assessment
- SAFE Protocol for preventing TMD Issues

### **Course Description**

Every time we alter the chewing surface of a tooth we impact the entire stomatognathic system. Some patients have very low functional risk and a high ability to adapt to the changes we make, other patients present with complex functional and restorative challenges or a low threshold to adapt to change. Whether the complexity is extreme wear, deep bite class two occlusion or a patient with damaged joints moving forward is about assessing the risks and managing them as part of our overall treatment plan. In this program we will explore these and other occlusal challenges and look at how we can make our dentistry more predictable and help our patients stay healthy and comfortable.

One hour continuing education credits will be given.

REGISTRATION INFORMATION ON THE REVERSE SIDE

# Registration Form

Register for TMD Risk Analysis with Dr. Lee Ann Brady  
to be held on Thursday, March 22, 2018

Centennial Lakes Park—Hughes Pavilion—Parlor Room
