- Why you should be covered by dental disability insurance.
- When should you get a policy.
- What are the main contractual language differences between individual and group policies.

Benjamin Bowling, D.D.S.

Michael Mrosak, D.D.S.

Course Description

Come spend one night to educate yourself on a topic that could change your life forever. Drs. Bowling and Mrosak will provide much needed information for when the unthinkable happens.

In June 2016, I had severe trauma to my right hand; mostly involving my middle and index fingers. Since then I have been in and out of work while having 7 different operations. All of this changed in a blink of an eye. Are you prepared if something changed your dental career? The physical and mental pain is enough to deal with if something unfortunate happens--don't add financial stress too. ~ Ben Bowling, D.D.S.

Dr. Benjamin Bowling — Benjamin Bowling earned both his B.A. in Finance ('03) and DDS degrees ('07) from the University of Iowa. In 2007, he moved to the Minneapolis area and has worked as general dentist at Long Lake Dental, in Long Lake since 2008. He will share his personal story of managing disability with you.

Dr. Michael Mrosak — Michael Mrosak experienced two disabilities after 24 years of successfully practicing dentistry. Through the disability claim process, he learned that his insurance policies were not the same due to contractual language differences. Dr. Mrosak will share his knowledge and educate you in why disability insurance is a must and how the contractual language of the policy really matters.

One and a half hour continuing education credits will be given.
