COURSE DESCRIPTION

The rapid growth of our older population now presents dental professionals with new challenges in clinical care. Older adults commonly appear with complex chronic medical conditions, medication regimens, functional limitations, and a variety of unique oral health needs that require new and creative approaches in the dental office. The purpose of this course is to increase participants' skills in recognizing these special concerns and provide practical strategies to manage them.

PRESENTER

Stephen K. Shuman, DDS, MS, Associate Professor and Director, Oral Health Services for Older Adults Program, Department of Primary Dental Care, University of Minnesota School of Dentistry; and Dental Director, Walker Methodist, Minneapolis, MN.
