TOPICS

What's new in Oral Surgery

Dr. Smart will be bringing a wealth of knowledge; updating the general practitioner on what's new in Oral Surgery today. This includes treating sleep apnea, MRONJ/BRONJ, anticoagulated patients, cardiac patients, those with renal/pulmonary issues, also substance abuse. He also will discuss grafting, implant placement, soft tissue management, extraction techniques, biopsy techniques and hemorrhage control.

State of the art dental course in OSHA, HIPPA, and infection control

Together, Adam and Gerry have the highest quality information that we expect from Henry Schein. They will be presenting a state of the art dental course in OSHA, HIPPA, and infection control with workbooks, training materials, and all documents to keep you, your staff, and your patients safe and up to date.
