Connect With the Next Generation of Dentists

Your Presence is Requested. Please Join Us. We Need You.

Join us at the 2018 Student Networking Event and forge new connections with dental professionals and future dentists. Our speed-networking format is an efficient, face-to-face professional networking model that enables participants to make new contacts. This is a structured, fast-paced networking event where you will have the opportunity to speak to dental professionals and some recent graduates currently in GPR programs. Speed networking is great for experienced and nervous networkers alike and we guarantee that you will meet more people than you typically do at a standard networking event.

Dentistry is a profession of ongoing education and economics, of government and politics, of colleagues and mentors, and of new ideas and strategies for working effectively with patients, enhancing our craft, and forging out a satisfying career. As seasoned professionals we need to share our journey with the youth of our profession.

Program Outline

The evening will begin with a social reception followed by speed networking. Once the speed networking portion has concluded, we will hear from a panel of young dentists of diverse dental backgrounds. Dr. Aruna Rao will serve as moderator.

Our panel will discuss dental practice choices and contracts, practice options, managing a dental team, why participating in organized dentistry matters and finding balance in life while practicing dentistry, as well as how they have managed their dental school debt.

The speed networking portion is where your services and expertise is needed. Come share your journey, answer one on one questions from our dental students.
